KEMLER, the New York murderer, has

been saved for a time from electrical execu-

tion by the intervention of a writ of

habeas corpus sworn out by some one who

did not even know him; and had not com-

municated with him. Presumably the

new activity in behalf of the murderer is

prompted by the electrical companies,

which have in the past manifested so

much anxiety to have the new means of

executing declared cruel and unusual,

and therefore in conflict with the Federal

Constitution. But these points have al-

ready been passed upon by a competent

tribunal, and decided adversely to the

plaintiff. The issue of the writ of habeas

corpus is a summary proceeding and a

last process. When, therefore, six weeks

and more are interposed between its issue

and the hearing upon it, it is an un-

usual thing and excites inquiry why this

is done. The grounds upon which the

writ was asked are that the punishment to

be inflicted is cruel and unusual, and

therefore in conflict with the Federal

Constitution.

The Court granting the writ has set the

hearing at so distant a day as June 17th. Why

the hearing thus postponed it is diffi-

cult to understand. The issuance of the

writ of habeas corpus is a summary pro-

ceeding and intended to be a speedy and

a last process. When, therefore, six weeks

and more are interposed between its issue

and the hearing upon it, it is an un-

usual thing and excites inquiry why this

is done. The grounds upon which the

writ was asked are that the punishment to

be inflicted is cruel and unusual, and

therefore in conflict with the Federal

Constitution.

CAPTAIN THOMAS, the President of

the California Pioneers of New England,

who are now visiting the State, echoed

the expression of all the members of the

party while they were in this city when

he said to the Pioneers of San Francisco on

Tuesday that full credit had never

been given at the East to the work of

Californians in building this empire of

the republic upon the shores of the Pacific.

The nation has not fully recognized

the part California has taken in the up-

building of the country as it should have

done. Captain Thomas well said: "A

You men who founded a great State deserve

the homage of the world. Your work has filled

our eyes with wonder. We have watched your

progress with admiration for years to come,

but will for many years to come. But the

trust and reliance we placed in you when the Union was

gained for us has been repaid.

The Union was gained for us, and the monument

should rise in the heart of the city it de-

fended.

It is said that a bill is before a Con-

gressional committee for the disincor-

poration of Mormons, and that it is likely to

be reported favorably. This is an error.

No committee will ever report such a bill,

since no committee wished to wear the cap-

and bells. Any such measure would be

held to be unconstitutional, and should be.

Clearly it would be as convenient to pass a

law disincorporating all Methodists, all

Catholics or all Presbyterians. The guar-

antee of the right to worship God accord-

ing to the dictates of conscience, within

the necessary regulations of law for the

peace and safety of the people, is invio-

lable. The revivalists may shout, the

Mormon preach and the Salvationists

confess with fits and drum, but no law will

be tolerated that by title will disincor-

porate any one for entertaining a

religious belief. When that is done the

liberties of the people will be effectually

undermined.

SOME time ago an Eastern firm offered

a premium for the solution of the storage

battery problem. Signal Service Chief

Greely replied to the offer that the greatest

need of the age is an economic storage

battery, but that its construction is im-

possible. Now, however, we have news

that a Detroit inventor named Woodward

has discovered just what General Greely

pronounced undiscoverable. So much

confidence is expressed in the invention

that a syndicate with nearly a half-million

of capital stock has been formed to build

the battery and to locate extensive

works for its purpose in Chicago. We are told that tests made on street rail-

ways in Detroit demonstrated the value

and economy of the invention, and that

in that city the economic propulsion of

street cars by electricity delivered from

storage batteries is now deemed a fixed

fact, and that the days of the "horse-car"

are numbered. Let us hope that this news

is verity. If the economic storage bat-

tery problem is solved, the future of the

electric franchise is assured.

The Governor Grants a Pardon to A. P.

Gipson.

A pardon was issued yesterday to A. P.

Gipson, alias "Sandy" Gipson, convicted in

Shasta County in May, 1878, and sentenced

in the first degree, and sentenced to im-

prisonment for life.

In granting the pardon, the Governor

said: "I have made a careful examination

of the record of the testimony submitted at

the trial, and in my opinion it is insuf-

ficient to establish Gipson's guilt."

In this conclusion I am upheld by Judge

Aaron Bell, of Shasta county, who states

that he has been against Gipson

as an accomplice in the crime, and afterwards made affidavit to the effect that he was solely at the trial and that Gip-

son was not a party to his com-

plicity. And a Mrs. Reynolds, whose rep-

utation for truth and veracity was decidedly

questioned. Her testimony was to the

effect that Gipson, in his defense, made

the statement to her that he was innocent

of the killing, which is a very improbable

story.

Both Hillbrandt and Tom Gipson, an-

other accomplice, were pardoned after hav-

ing served but for years in the state sen-

tences, the former by Governor Stevenson,

and the latter by Governor Pe-

kins, in 1882.

The Government Inspector on our

southern border reports to the Washington

authorities that the means of entry across

the border are so many and the line so

long that with the present force at com-

mand it is impossible to prevent Chinese

from crossing from Mexico into this State.

The business of shipping Chinese to Cali-

fornia via Mexico is reported officially to

be very large and profitable, and that it is

backed by much
